

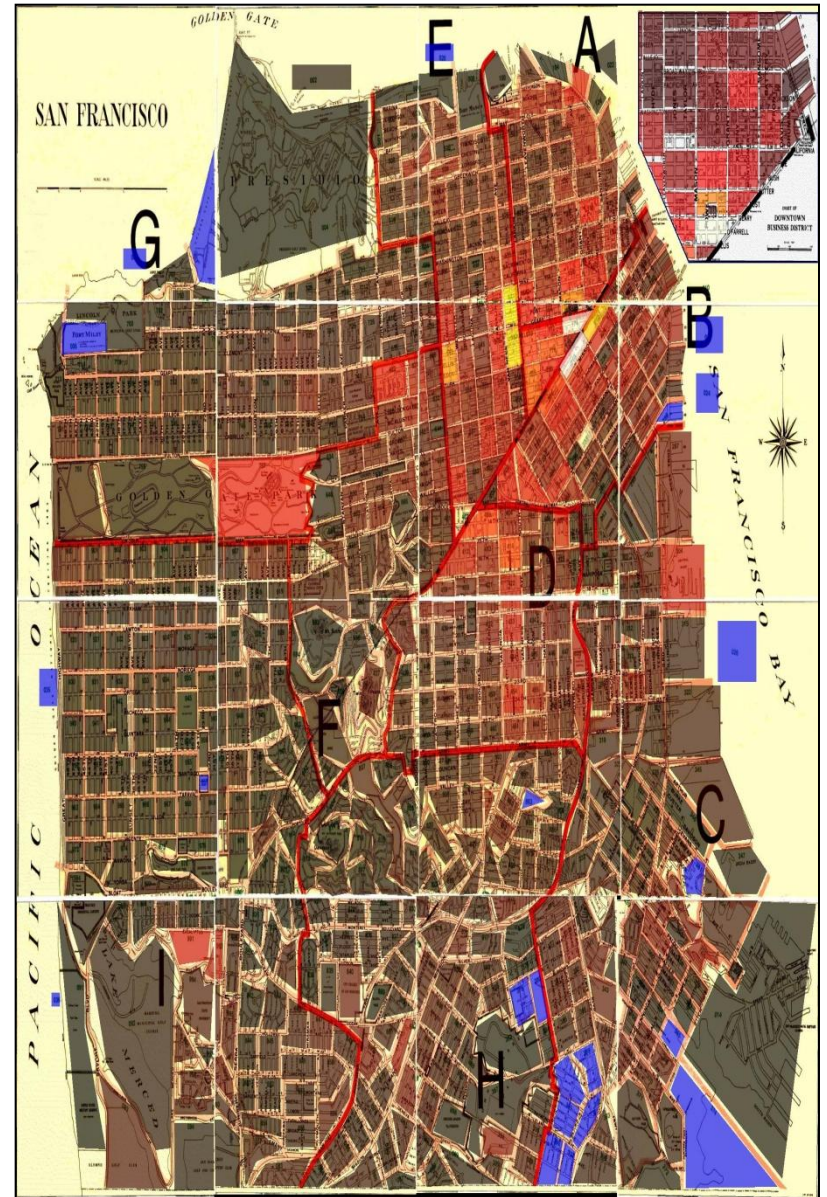

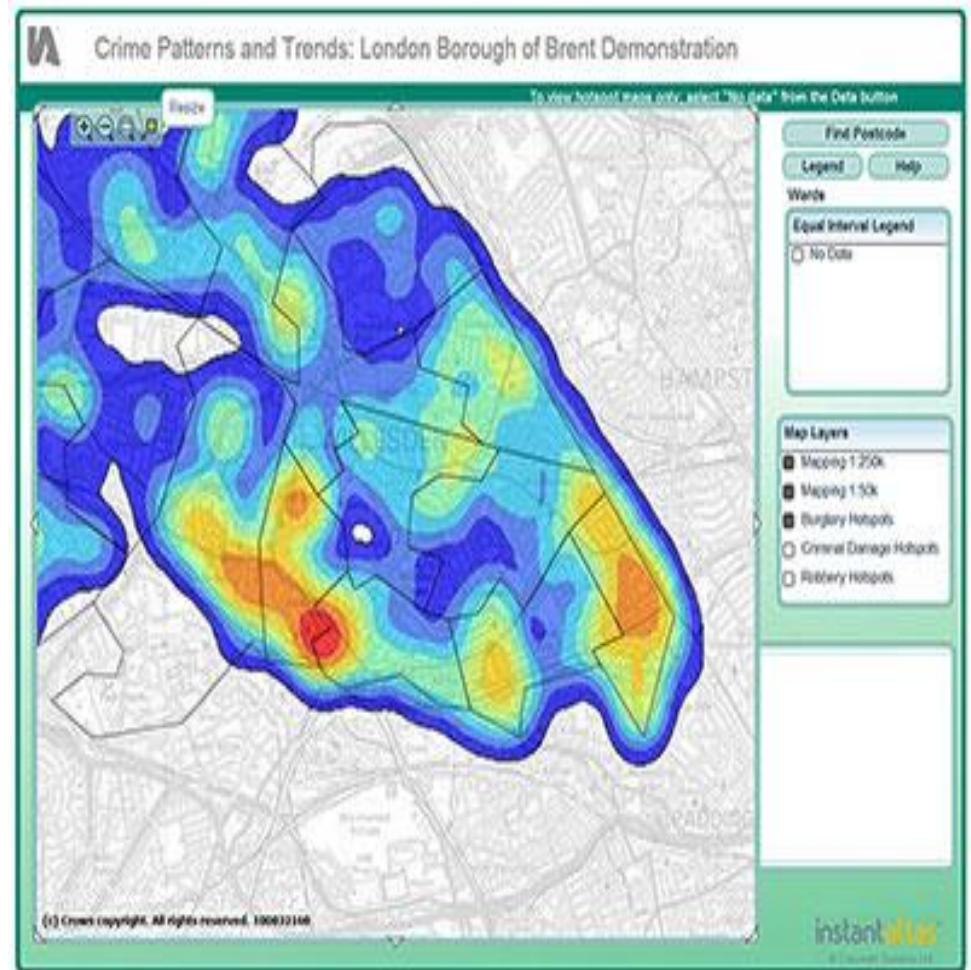

# Mapping more than hotspots: the evolving nature of crime maps

James Hunter,  
Principal Lecturer in Public  
Policy, Nottingham Trent  
University

# Issues to explore

- Evolution of crime maps;
- Crime maps as a policy tool;
- What should we be mapping?
- New directions: citizen generated crime maps.

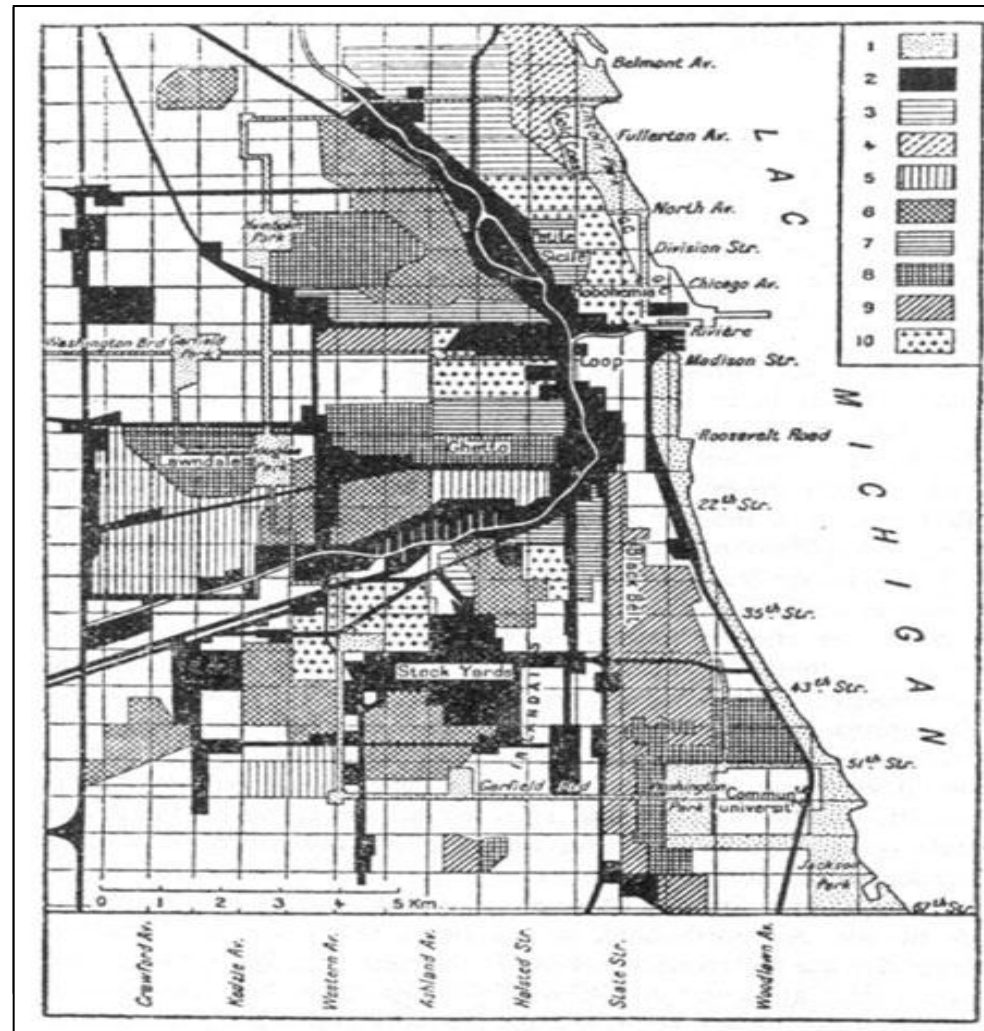

# Evolution of crime maps

- Philanthropic interest in social conditions and social problems – moral sciences;
- Concern with moral breakdown and social disorder;
- Emergence of ‘thematic’ cartography;
- Original crime maps (André-Michel Guerry, Adolphe Quételet) – ‘cartographic’ and ‘positivist’ schools of criminology;
- Charles Booth poverty maps of London.

# Evolution of crime maps

- Chicago School:  
Robert Park and Ernest Burgess (*The City*, 1925);
- Shaw and McKay (1942) – social disorganisation theory;
- Environmental criminology.

# Evolution of crime maps

- Jane Jacobs (*The Death and Life of Great American Cities*, 1961);
- Oscar Newman (*Defensible Space*, 1973);
- Wilson and Kelling (*Broken Windows: The Police and Neighbourhood Safety*, 1982);
- Hillier - space syntax (*Space is the Machine*, 1989).

# Evolution of crime maps

- Crime hotspots;
- Geographical information systems;
- Interactive crime mapping;
- Local crime maps.

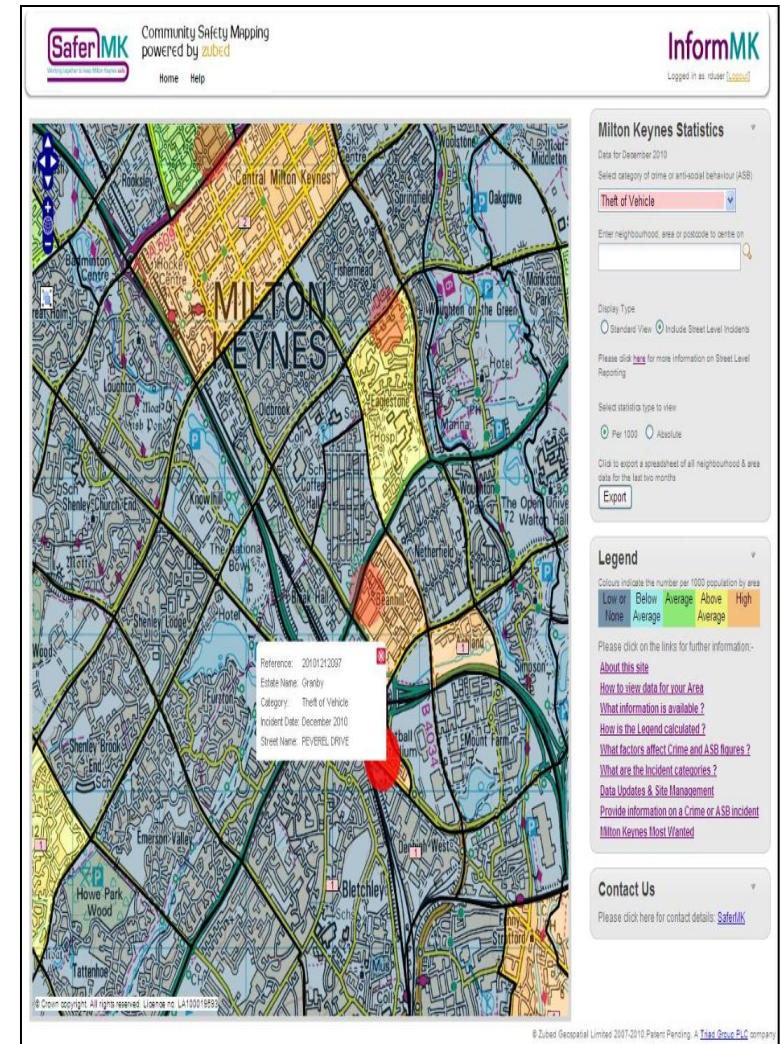

# Crime maps as a policy tool

- Shift from reactive to proactive responses to crime;
- Modernisation and better policy-making;
- Resource deployment;
- Improved targeting;
- Evidence-based policy-making;
- Aid to policy learning.

# What should we be measuring?

- Prevalence of crime (volume, type, dynamic change);
- Fear of crime;
- Causes of crime;
- Resource allocation;
- Crime reduction initiatives;
- Police stations and police response.

# What is the central debate about?

- 'People poverty'

versus

- 'Place poverty'

# **“It’s the individuals fault” – the concept of people poverty**

- “People poverty occurs where low-income people occupy certain parts of a city by virtue of their low income – but their money incomes are not low because of where they live” (Smith, 1977).

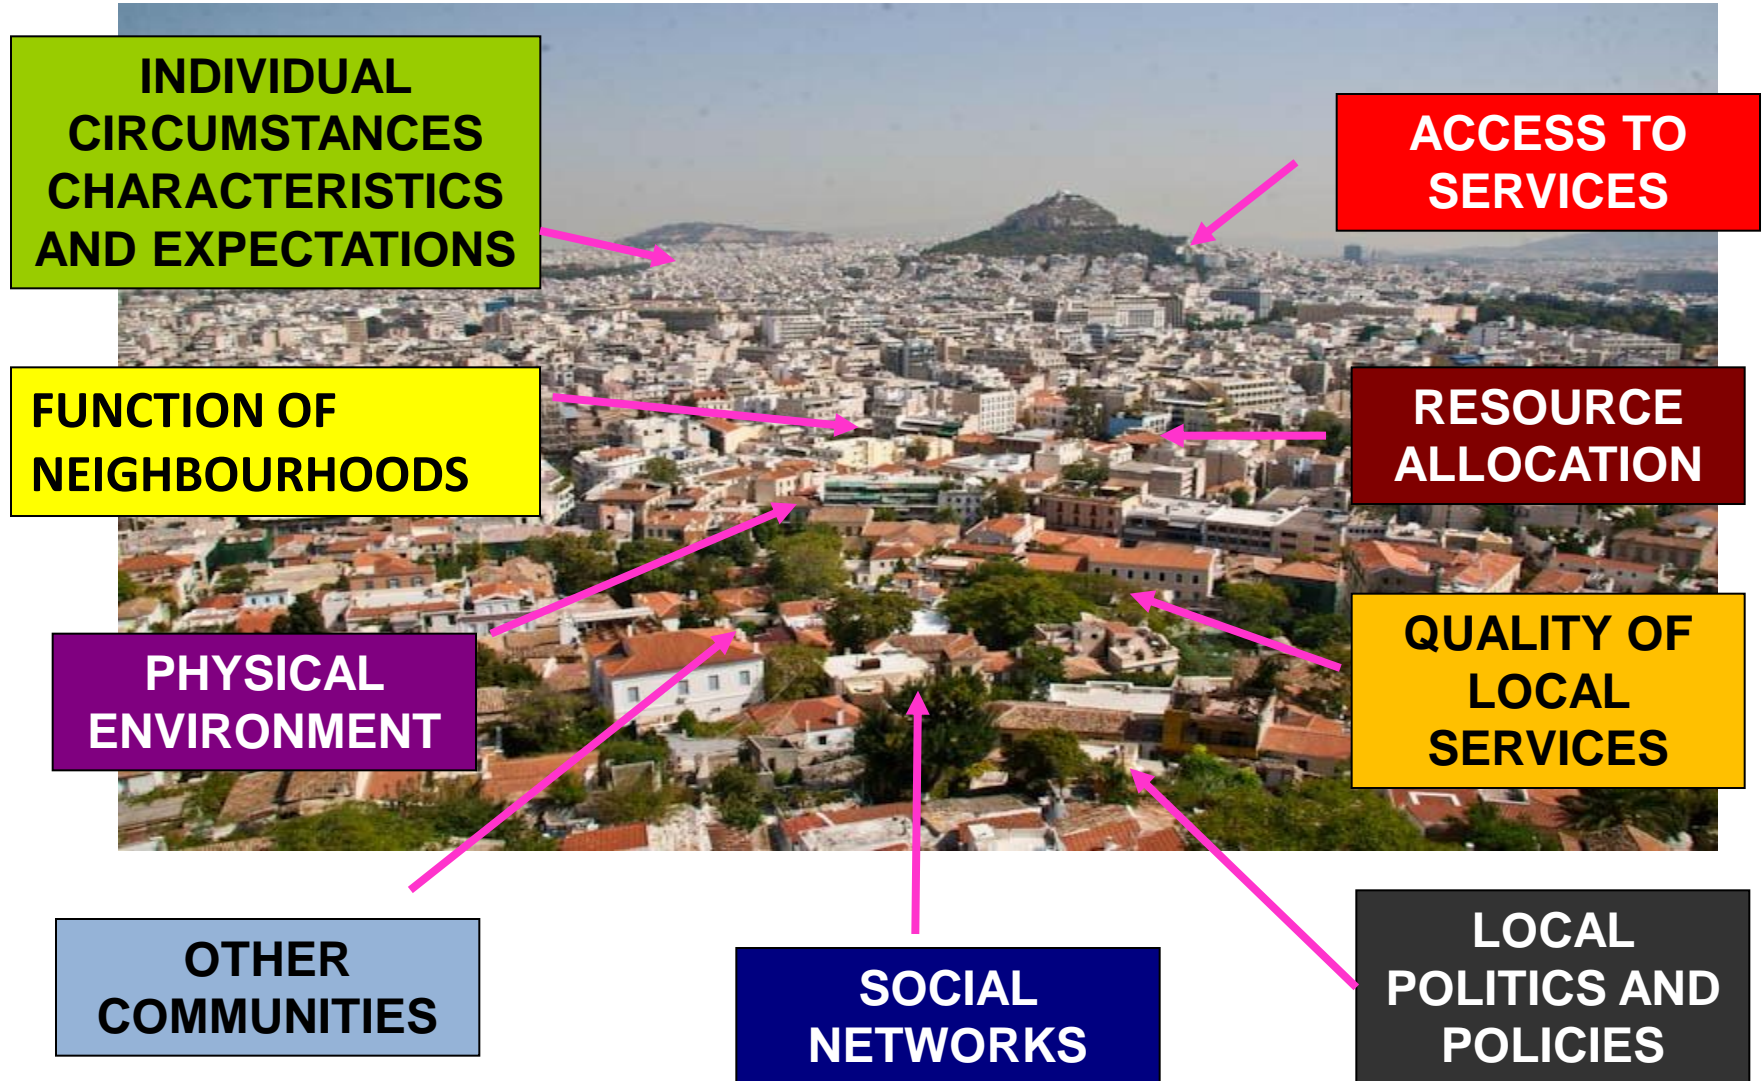

# “It’s the places fault” – the concept of place poverty

- “People are poor because where they live compounds the advantages or disadvantages of particular groups by virtue of where they live” (Smith, 1977).

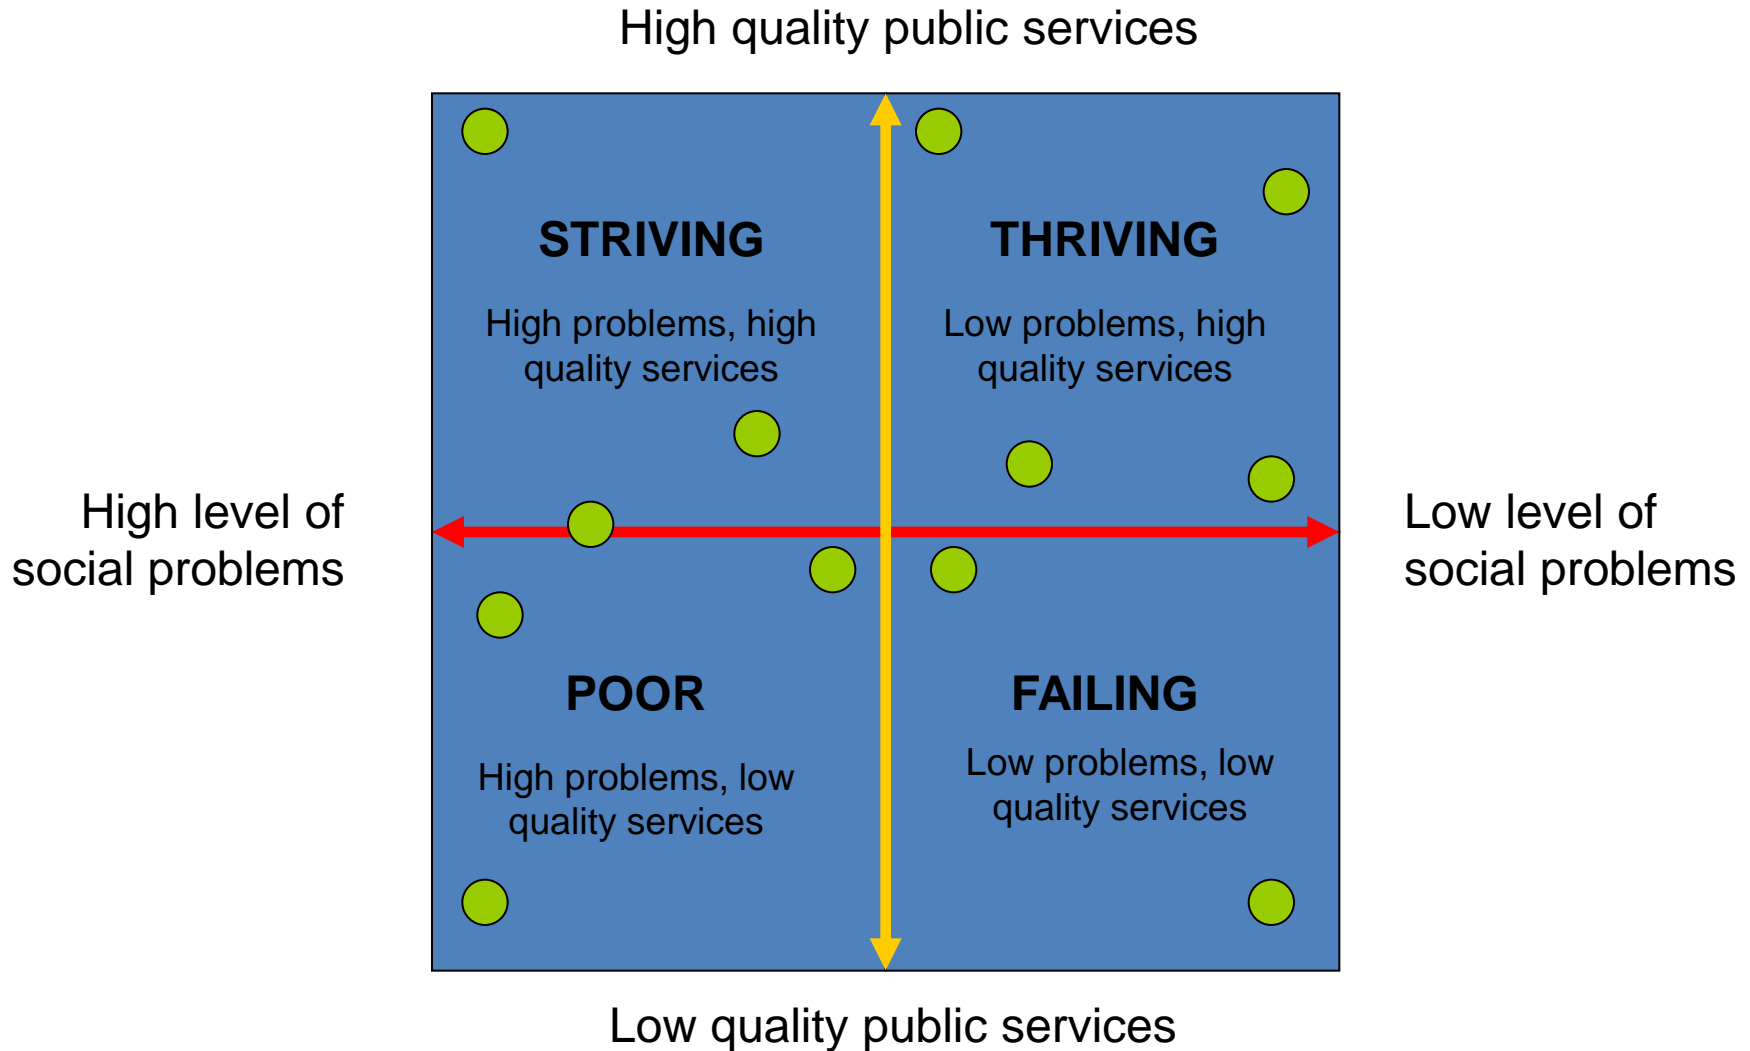

# Neighbourhood effects and the geography of social problems

# Quality of life matrix

# Total offences QLM for England 2010/11

# Burglaries QLM for England 2010/11

# New directions: citizen generated crime maps

- Arrival of Google Maps;
- Arrival of smart phones;
- Crime statistics apps;
- Citizen generated crime maps;
- Citizen generated alerts;
- From passive consumers to active citizens.

# New directions: citizen generated crime maps

- From government to governance;
- Changing relationship between the State and citizens;
- Moving beyond citizen consultation;
- Community-orientated policing;
- Participatory budgeting;
- Citizen involvement in all aspects of local decision-making;
- Citizens as evaluators.
